LEED in new and existing markets

Published on **5 Jun 2013** | Written by **Joseph Crea** | Posted in **LEED**

LEED Earth is a new campaign designed to bring LEED, the most widely recognized and used green building certification program, around the world.

We are offering free LEED certification to the first projects to certify in the over 100 countries (See Below) where LEED currently does not exist. Additionally, LEED Earth is offering free LEED certification to the first Platinum project—in any country--to certify using the newest version of LEED.

Whether you are in a new or existing market, to participate in the program and register a project, contact us at LEEDEarth@usgbc.org. View the campaign's rules and regulations. Share your involvement in the campaign or follow updates on Twitter with hashtag #LEEDEarth.

Countries able to Participate*

Afghanistan
Albania
Algeria
Andorra
Angola
Antigua and Barbuda
Armenia
Azerbaijan
Barbados
Belarus
Belize
Benin

Hi Farizan! Thanks for your inquiry. As of yet, there are no LEED-certified projects in Myanmar.

FARIZAN d'Avezac de Moran — 1 year 19 weeks ago
Senior Partner , GreenA Consultants Pte Ltd

do you have any projects under Myanmar as yet ?

Contractor, Energime Sustainable Technologies

Hello, Chemiewende is sponsored by Arab German Development Association. Energy methods using mineral oil and new invention to replace coal will participate in a demonstration and event coming to USA. To register or cooperate plans with the project manager and award winner of nasa, please contact agda-ev.org/AGDA_cooperating-plan.html. Also visit the official site AGDA-ev dot org and on twitter @AGDA2050, linkedin AGDAev and on facebook AGDA.
Office Director USA
